

3. QUALITY OF TEACHERS AND TEACHING

3 (g) Classrooms

available with

mounted

projectors and ICT

facilities

Shri Guru Tegh Bahadur Institute of Management & Information Technology

Classrooms available with mounted projectors and ICT facilities.

Our classrooms are equipped with mounted projectors and Information and Communication Technology (ICT) facilities to create an interactive and engaging learning environment. Classrooms are designed to enhance the teaching and learning process by integrating various technological tools that support diverse educational needs.

Features of SGTBIMIT Equipped Classrooms

1. Mounted Projectors:

- **Visual Presentation:** Projectors allow teachers to display presentations, videos, and educational content on a large screen, making it easier for all students to see and understand the material.
- **Interactive Learning:** Many projectors support interactive features, enabling teachers to engage students through real-time quizzes and discussions.

2. Smartboards:

- These boards combine traditional whiteboards with digital technology, allowing teachers and students to write, draw, and manipulate digital content directly on the board.

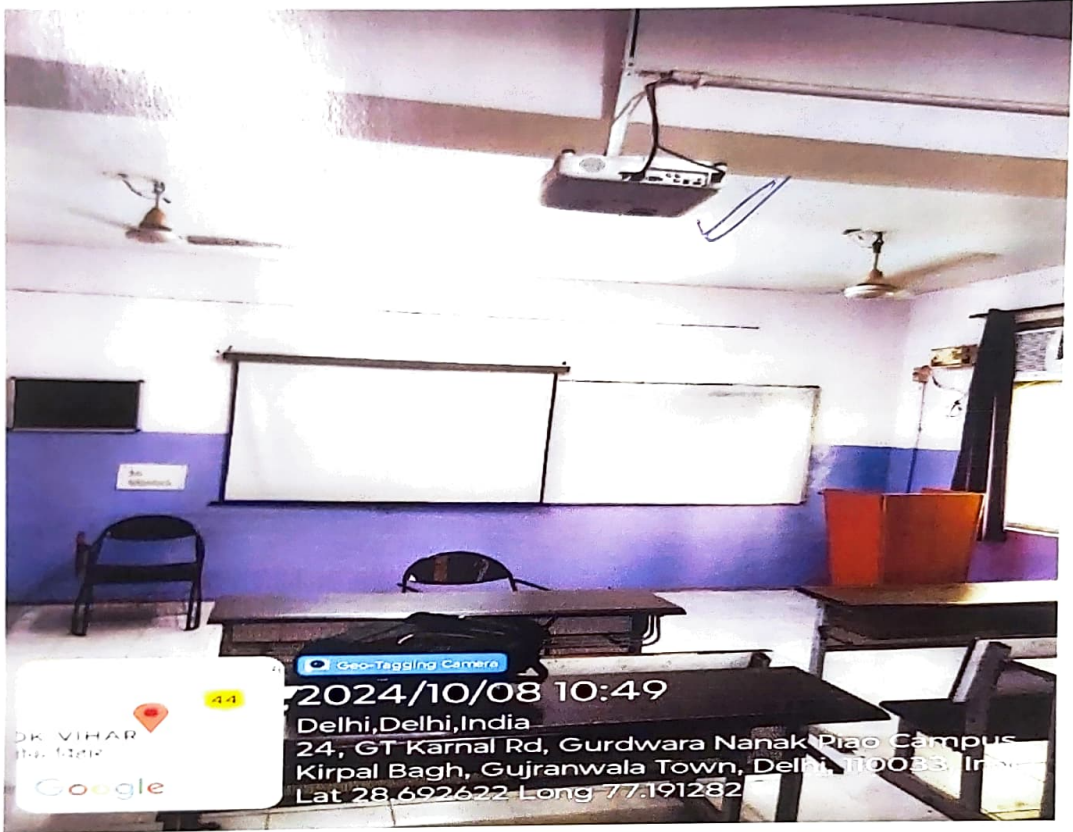

3. High-Speed Internet Access:

- Reliable internet connectivity is essential for accessing a wealth of online resources, videos, and interactive learning platforms.
